

Delegation to Portugal

27, 28 and 29 October 2026 | Lisbon

Innovating Health Together Conference'26 - Resilient and Sustainable Health Systems for the Future

Purpose of the Delegation

This delegation is designed as a high-level exchange for healthcare organizations, solution providers and networks working at the intersection of healthcare innovation and sustainability.

Rather than a traditional study visit, this initiative is conceived as a collaborative, community-driven exchange, fostering long-term Nordic-Portuguese partnerships and actionable learning.

Exchange Formats

- Participation in the Innovating Health Together Conference'26 organised by Health Cluster Portugal
- Site visits to a healthcare institution and a research hub
- Structured networking to support partnership building

Target Audience

- Life sciences, medtech, healthtech and digital health companies interested in collaborative R&D and industrial partnerships;
- Hospitals, universities, and research centers with interest in clinical and technological innovation projects;
- Regional innovation agencies and clusters;
- Start-up investors in the Life Science sector.

Innovating Health Together Conference 2026 (IHTC 2026)

The 2026 edition of Innovating Health Together Conference will focus on how health systems can remain resilient, sustainable, and responsive in the face of accelerating demographic, technological, economic, and environmental pressures. As healthcare systems across Europe and globally confront ageing populations, workforce shortages, rising costs, and growing health inequalities, the need for new models of care and long-term system resilience has never been greater.

Conference Topics:

- Resilient Health Systems & Policy
- Sustainable Models of Care & Value

- Data, Digital & AI for System Sustainability
- Personalized Health, Prevention & Longevity
- Innovation, Scale & Global Collaboration

Agenda

**October
27 & 28**

Full access to the entire [IHTC 2026](#) conference ecosystem and all featured initiatives:

- Keynote talks, panel discussions and expert-led debates.
- HealthTech Showroom.
